

# Challenge: Cherry-Picking

Test your understanding of cherry-picking by completing this challenge.

We'll cover the following

- Problem statement
- Solution

## Problem statement #

Clone a Git repository from GitHub, and create a branch in your cloned repository. Then go to that branch and randomly cherry-pick changes from the main (usually `master`) branch onto your branch.

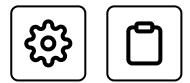

Terminal 1

Terminal

Click to Connect...

# Solution #

Click the “Show Solution” button to learn about the solution.
