

# Challenge: Reflog

Test your understanding of reflog by completing this challenge.

We'll cover the following

- Problem statement
- Solution

## Problem statement #

Initialize a repository, and create two commits on the main branch. Create a new branch, and create another commit on it. Remove commit from the new branch. Then, restore that commit.

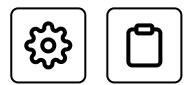

Terminal 1

Terminal

Click to Connect...

# Solution #

Click the “Show Solution” button to learn about the solution.
